

PRIVACY POLICY

Your privacy is important to us and we are committed to protecting your privacy. So we've developed a Privacy Policy. Please take a moment to familiarize yourself with our privacy practices and let us know if you have any questions.

PERSONAL INFORMATION

Personal information is data that can be used to uniquely identify or contact a single person. We DO NOT collect, store or use any personal information while you visit, download or upgrade our website or our products, excepting the personal information that you submit to us when you create a user account, send an error report or participate in online surveys and other activities. Only for the following purposes that we may use personal information submitted by you: help us develop, deliver, and improve our products and services and supply higher quality service; manage online surveys and other activities you've participated in.

- (1) Your prior permission;
- (2) By the applicable law within or outside your country of residence, legal process, litigation requests;
- (3) By requests from public and governmental authorities;
- (4) To protect our legal rights and interests.

NON-PERSONAL INFORMATION

Non-personal information is data in a form that does not permit direct association with any specific individual, such as your Device ID, CPN model, memory size, your phone IMEI number, phone model, rom, phone operator, location, install, uninstall, frequency of use, etc. We may collect and use non-personal information in the following circumstances. To have a better understanding in user's behavior, solve problems in products and services, improve our products, services and advertising, we may collect non-personal information such as the data of install, frequency of use, country, equipment and channel. If non-personal information is combined with personal information, we treat the combined information as personal information for the purposes of this Privacy Policy.

PROTECTION OF PERSONAL INFORMATION

We take precautions — including administrative, technical, and physical measures — to safeguard your personal information against loss, theft, and misuse, as well as against unauthorized access, disclosure, alteration, and destruction.

When you use some products, services, or post your comments, the personal information you share is visible to other users and can be read, collected, or used by them. You are responsible for the personal information you choose to submit in these instances. Please take care when using these features.

OUR COMPANYWIDE COMMITMENT TO YOUR PRIVACY.

To make sure your personal information is secure; we communicate our privacy and security guidelines to all employees and strictly enforce privacy safeguards within the company.

PRIVACY QUESTIONS

If you have any questions or concerns about our Privacy Policy or data processing, please contact us. We may update Privacy Policy from time to time.

Why do I need to allow "Full Access" for the Emoji Stickers Keyboard?

Why do I need to allow "Full Access"

- Regarding the Full Access disclaimer. The 'Allow Full Access' alert is automatically generated by Apple. It appears for almost all, if not all, 3rd party keyboards in the App Store. We, Emoji Stickers Keyboard, need 'Full Access' to utilize Apple's iOS copy and paste feature. It's a critical part to using our keyboard. **We, at Emoji Stickers Keyboard, are NOT transmitting or stealing any of your personal sensitive information. We do not steal, store or have the capability or knowledge to transmit any messages you type or take any personal info such as credit card numbers, etc.. using our keyboard. By default, the iOS keyboard is used for such personal information.** Users must allow full access on our keyboard to use the copy and paste feature. Nothing more. Nothing less. Our keyboard does not analyze sentence for grammar, it does not analyze words for spelling, it does not predict words being typed.

To sum up, we cannot read or transmit any of your texts or see any past activity like purchases or credit card numbers. We cannot track any of your conversations, keystrokes, private info etc. We do not (and cannot) track what you do on your default iOS keyboard or any other keyboard. Emoji Stickers can only track what 'Emoji Stickers' images inside the app are being used at an anonymous and aggregated level. This helps generate stats for the 'Emoji Stickers' which makes the "Popular" page. This anonymous data also helps us to improve the service, but that's the extent of what we're able to do. Additionally, you cannot use a 3rd party keyboard to type into a password field. iOS will always use the system's default keyboard for password fields. Although, we offer a functioning QWERTY keyboard with the extension of our app to approve the user's experience and to meet Apple's guideline, the core of our app is the ability to copy and paste 'Emoji Stickers'. You can use our 3rd party keyboard with confidence and know we don't have access or steal your sensitive personal information. We're readily accessible.
